

**Test Script Information:**

|                  |                       |
|------------------|-----------------------|
| System Name      | Uma Mahesh            |
| Environment      | Test                  |
| Operating System | Ubuntu 16.04          |
| Browser(Version) | User Defined          |
| System ID        | 192.168.1.8           |
| Test Script Name | intakeLogin           |
| Project Name     | Practice              |
| Report Type      | Post Execution Report |
| Date             | 10-Sep-2017           |

**SUMMARY REPORT:**

| Test Case ID                                    | Test case name | status | Start Time | End Time |
|---|----------------|--------|------------|----------|
| 1   | intakeLogin    | FAIL   | 19:57:52   | 19:58:41 |
| <b>Objective/Acceptance Criteria of script:</b> |                |        |            |          |
| Scenario:1-IntakePlatform Login                 |                |        |            |          |

**Result Report**

| Step No                         | Status | Objective Evidence | Exe Time |
|---------------------------------|--------|--------------------|----------|
| 1                               | Pass   | Y                  | 19:58:19 |
| Description                     |        |                    |          |
| Open the URL                    |        |                    |          |
| Expected                        |        |                    |          |
| Application should open the url |        |                    |          |
| Actual                          |        |                    |          |
| Successfully opened the URL     |        |                    |          |
